Andy Samberg heading to 'Yo Gabba Gabba!'

The hypnotic, sublimely strange Yo Gabba Gabba! kicks off a run of new episodes Monday, Oct. 12 with guest stars The Roots, and the following episode finds SNL's Andy Samberg playing around with DJ Lance Rock. Yep, that sounds about right.

YGG is also going on a tour dubbed "Yo Gabba Gabba! Live: There's a Party In My City!", so find a preschooler who likes having his or her mind blown and enjoy. And remember, guys, don't eat bread you dropped on the ground. Also remember this show is technically for children and not for people who enjoy recreational drug use.

I like Samberg a whole lot, but I don't think anyone can top Biz Markie in the Gabba verse. Can they, PopWatchers?
